

## Tabela de iões

| Catiões          |                        |
|------------------|------------------------|
| Alumínio         | $\text{Al}^{3+}$       |
| Amónio           | $\text{NH}_4^+$        |
| Bário            | $\text{Ba}^{2+}$       |
| Berílio          | $\text{Be}^{2+}$       |
| Bismuto          | $\text{Bi}^{3+}$       |
| Boro             | $\text{B}^{3+}$        |
| Cádmio           | $\text{Cd}^{2+}$       |
| Cálcio           | $\text{Ca}^{2+}$       |
| Césio            | $\text{Cs}^+$          |
| Chumbo           | $\text{Pb}^{2+}$       |
| Cobalto (II)     | $\text{Co}^{2+}$       |
| Cobalto (III)    | $\text{Co}^{3+}$       |
| Cobre (I)        | $\text{Cu}^+$          |
| Cobre (II)       | $\text{Cu}^{2+}$       |
| Crómio (III)     | $\text{Cr}^{3+}$       |
| Estanho (II)     | $\text{Sn}^{2+}$       |
| Estanho (IV)     | $\text{Sn}^{4+}$       |
| Estrôncio        | $\text{Sr}^{2+}$       |
| Ferro (II)       | $\text{Fe}^{2+}$       |
| Ferro (III)      | $\text{Fe}^{3+}$       |
| Gálio            | $\text{Ga}^{3+}$       |
| Hidrogénio       | $\text{H}^+$           |
| Lítio            | $\text{Li}^+$          |
| Magnésio         | $\text{Mg}^{2+}$       |
| Manganésio (II)  | $\text{Mn}^{2+}$       |
| Manganésio (III) | $\text{Mn}^{3+}$       |
| Mercúrio (I)     | $\text{Hg}_2^{2+}$     |
| Mercúrio (II)    | $\text{Hg}^{2+}$       |
| Níquel (II)      | $\text{Ni}^{2+}$       |
| Níquel (III)     | $\text{Ni}^{3+}$       |
| Ouro (I)         | $\text{Au}^+$          |
| Ouro (III)       | $\text{Au}^{3+}$       |
| Oxónio           | $\text{H}_3\text{O}^+$ |
| Platina (II)     | $\text{Pt}^{2+}$       |
| Potássio         | $\text{K}^+$           |
| Prata            | $\text{Ag}^+$          |
| Sódio            | $\text{Na}^+$          |
| Vanádio (V)      | $\text{V}^{5+}$        |
| Zinco            | $\text{Zn}^{2+}$       |

| Aniões                           |                                       |              |                             |
|----------------------------------|---------------------------------------|--------------|-----------------------------|
| Acetato                          | $\text{CH}_3\text{CO}_2^-$            | Hipoclorito  | $\text{ClO}^-$              |
| Aluminato                        | $\text{AlO}_2^-$                      | Hipofosfito  | $\text{H}_2\text{PO}_2^-$   |
| Antimonato                       | $\text{SbO}_4^{3-}$                   | Hipiodito    | $\text{IO}^-$               |
| Antimonito                       | $\text{SbO}_3^{3-}$                   | Iodato       | $\text{IO}_3^-$             |
| Arsenato                         | $\text{AsO}_4^{3-}$                   | Iodeto       | $\text{I}^-$                |
| Arsenito                         | $\text{AsO}_3^{3-}$                   | Manganato    | $\text{MnO}_4^{2-}$         |
| Borato                           | $\text{BO}_3^{3-}$                    | Metafosfato  | $\text{PO}_3^-$             |
| Bromato                          | $\text{BrO}_3^-$                      | Nitrato      | $\text{NO}_3^-$             |
| Brometo                          | $\text{Br}^-$                         | Nitrito      | $\text{NO}_2^-$             |
| Bromito                          | $\text{BrO}_2^-$                      | Ortosilicato | $\text{SiO}_4^{4-}$         |
| Carbonato                        | $\text{CO}_3^{2-}$                    | Oxalato      | $\text{C}_2\text{O}_4^{2-}$ |
| Cianato                          | $\text{CNO}^-$                        | Óxido        | $\text{O}^{2-}$             |
| Cianeto                          | $\text{CN}^-$                         | Perclorato   | $\text{ClO}_4^-$            |
| Clorato                          | $\text{ClO}_3^-$                      | Periodato    | $\text{IO}_4^-$             |
| Cloreto                          | $\text{Cl}^-$                         | Permanganato | $\text{MnO}_4^-$            |
| Clorito                          | $\text{ClO}_2^-$                      | Peróxido     | $\text{O}_2^{2-}$           |
| Cromato                          | $\text{CrO}_4^{2-}$                   | Persulfato   | $\text{S}_2\text{O}_8^{2-}$ |
| Dicromato                        | $\text{Cr}_2\text{O}_7^{2-}$          | Pirofosfato  | $\text{P}_2\text{O}_7^{4-}$ |
| Diidrogenofosfato                | $\text{H}_2\text{PO}_4^-$             | Silicato     | $\text{SiO}_3^{2-}$         |
| Estanato                         | $\text{SnO}_3^{2-}$                   | Sulfato      | $\text{SO}_4^{2-}$          |
| Estanito                         | $\text{SnO}_2^{2-}$                   | Sulfito      | $\text{SO}_3^{2-}$          |
| Fluoreto                         | $\text{F}^-$                          | Sulfureto    | $\text{S}^{2-}$             |
| Fosfato                          | $\text{PO}_4^{3-}$                    | Tetrionato   | $\text{S}_4\text{O}_8^{2-}$ |
| Fosfeto                          | $\text{P}^{3-}$                       | Tiocianato   | $\text{SCN}^-$              |
| Fosfito                          | $\text{PO}_3^{3-}$                    | Tiosulfato   | $\text{S}_2\text{O}_3^{2-}$ |
| Ftalato                          | $\text{C}_8\text{H}_4\text{O}_4^{2-}$ | Tiosulfito   | $\text{S}_2\text{O}_2^{2-}$ |
| Hexacianoferrato (II)            | $\text{Fe}(\text{CN})_6^{4-}$         | Triiodeto    | $\text{I}_3^-$              |
| Hexacianoferrato (III)           | $\text{Fe}(\text{CN})_6^{3-}$         | Zincato      | $\text{ZnO}_2^{2-}$         |
| Hidreto                          | $\text{H}^-$                          |              |                             |
| Hidrogenocarbonato (bicarbonato) | $\text{HCO}_3^-$                      |              |                             |
| Hidrogenodifluoreto              | $\text{HF}_2^-$                       |              |                             |
| Hidrogenofosfato                 | $\text{HPO}_4^{2-}$                   |              |                             |
| Hidrogenoftalato                 | $\text{HC}_8\text{H}_4\text{O}_4^-$   |              |                             |
| Hidrogenossulfato                | $\text{HSO}_4^-$                      |              |                             |
| Hidrogenossulfito                | $\text{HSO}_3^-$                      |              |                             |
| Hidrogenossulfureto              | $\text{HS}^-$                         |              |                             |
| Hidroperóxido                    | $\text{HO}_2^-$                       |              |                             |
| Hidróxido                        | $\text{HO}^-$                         |              |                             |
| Hipobromito                      | $\text{BrO}^-$                        |              |                             |
